Dear Ms. Myers:

The U. S. Environmental Protection Agency (EPA) is pleased to approve Total Maximum Daily Loads (TMDLs) for Brubaker Run Watershed, received by EPA for review and approval by the Pennsylvania Department of Environmental Protection, on July 2, 2004 (hard copy). The TMDLs were established and submitted in accordance with Sections 303(d)(1)(c) and 303(d)(2) of the Clean Water Act. The TMDLs were established to address impairments of water quality as identified in Pennsylvania's 1996, 1998, and 2002 Section 303(d) lists of impaired waters still needing TMDLs. A rationale of our approval is enclosed.

If you have further questions, please call me or have your staff contact Ms. Mary F. Beck at (215) 814-3429.

Sincerely,

*Signed*

Jon M. Capacasa, Director  
Water Protection Division
